Presentation Title

2022

Microsoft PowerPoint is a presentation program,^[1] created by Robert Gaskins and Dennis Austin^[2] at a software company named Forethought, Inc.^[3] It was released on April 20, 1987^[4] initially for Macintosh computers only.^[5] Microsoft acquired PowerPoint for about \$14 million three months after it appeared.^[6] This was Microsoft's first significant acquisition,^{[7][8]} and Microsoft set up a new business unit for PowerPoint in Silicon Valley where Forethought had been located.^{[9][10]}

PowerPoint became a component of the **Microsoft Office suite**, first offered in 1989 for Macintosh^[11] and in 1990 for Windows,^[12] which bundled several Microsoft apps. Beginning with PowerPoint 4.0 (1994), PowerPoint was integrated into Microsoft Office development, and adopted shared common components and a converged user interface.^[13]

PowerPoint's market share was very small at first, prior to introducing a version for Microsoft Windows, but grew rapidly with the growth of Windows and of Office.^{[4][14][402-404]} Since the late 1990s, PowerPoint's worldwide market share of presentation software has been estimated at 95 percent.^[15]
